The latest space weather forecast from Dr Tamitha Skov WX6SWW

January 28, 8am – 2pm 2023

Winterfest 2023 Winterfest 2023 is once again the ARRL Midwest Conference. There will be lots of interesting things going on that weekend.

To start, the W9DYV's Amateur Radio Symposium (Wes Schum Symposium) will once again be held at the Gateway Center in Collinsville, Illinois on January 27, 2023. This is a full day of forums. Friday evening will be the Winterfest Banquet at the Royale Orleans Banquet Hall in St Louis. Our keynote speaker is Glenn Johnson, WØGJ. Check out his QRZ page, <https://www.qrz.com/db/WØGJ>. He has been on several DXpeditions and will be exciting to hear (*about them*). Tickets are limited so get yours early. Saturday January 28, 2023 will be our sale and forums. This is where you come in. The SLSRC needs you to come be a vendor. Tables are available now at winterfest.slsrc.org for \$30.00. Each table comes with 1 admittance and 1 chair.

Brief Description of item

Marconi 6970 RF Power Meter

Details, price, condition, etc.

The 6970 RF Power Meter is a microcontroller controlled RF power meter that combines the high accuracy and fast, intuitive operation of a quality bench power meter with battery powered portability. The unit can be used to measure RF and microwave power from -70 dBm (0.1 nW) to +44 dBm (25 W) over a wide range of frequencies using the IFR 6910, 6920 and 6930 series of power sensors. Equipped with (1) 6912 Sensor 30KHz - 4.2GHz and 6900 series Sensor Manual.

In good working condition \$300 + shipping
